10 MAR 1965

MEMORANDUM FOR: Deputy Director for Support

SUBJECT : Ceiling Increase for JOT Program

REFERENCE : A. Memo for ExDir-Compt from DD/S,
Subject: Ceiling Increase for JOT
Program, dated 15 February 1965
(attached)
B. Memo for DDCI from DD/S, Subject:
Recruitment of Young Officers, dated
2 March 1964

1. The request for an increased authorization of 25 positions in the JOT Program has been held in this Office pending the development of additional data concerning the actual number of authorizations necessary to support a JOT Program of the magnitude approved in the 2 March 1964 memorandum to the DDCI (Reference B). As of 28 February 1965 there were 244 JOTs charged against an authorized ceiling of 290; therefore, additional personnel ceiling does not appear to be an immediate or urgent requirement.

25X1

2. Mr. [] has discussed this situation with Mr. [] and has indicated to him that additional ceiling authorizations to the full 315 level will be allocated as the need develops. It is conceivable that, in order to maintain a JOT Program at the approved levels, an authorized ceiling of something less than 315 may be adequate. If not, the full increase of 25 will be issued when it is required since there is no intention whatever to curtail the Program below approved levels. I suggest we watch the development of the Program carefully and as the ceiling requirements become more firm we will establish the necessary authorizations.
